REGULATIONS.

Into Effect July 26-Draft

Submitted.

lations.

of all interests affected.

country.

lations will be the model code of

this act was the most important for

There has been a steady and great increase in the use of electricity by private corporations and individuals in the District. There are now about 5,400 private

users of electricity in form of lighting and power. Now that authority has been given

the Commissioners to have all electric wiring inspected and that which is bad re-

moved, and two special inspectors have been authorized appointed for the purpose,

Commissioner Macfarland's next move will be to propose that there shall be estab-

lished the office of inspector of electric meters, corresponding to the inspector of

gas and meters, in order that there may be governmental supervision of the electric meters as well as of the gas meters.

## PANAMA IMPROVEMENTS. How the \$10,000,000 Canal Money

Will Be Expended. United States Consul General Gudger, at Panama, has made a report to the State Department in regard to projected improvements in Panama, in which he says: "The republic of Panama, having received the \$10,000,000 from the United States—the amount due on account of the canal contract-seems to be intent on carrying into effect the various public improvements throughout the republic which have been contemplated for some time.

"This idea finally culminated in an act by the national assembly on the 6th of June, 1904, by which certain sums were appropriated to the various provinces, as fol-

lows:
"Province of Panama, \$1,000,000; province of Colon, \$300,000; province of Chiriqui, \$450,000; province of Cocle, \$350,000; prov-ince of Los Santos, \$350,000; province of Vera Aguas, \$350,000; province of Bocas del

Torro, \$450,000. "Section 6 of the bill provides that within sixty days the president of the republic shall send to each one of the provinces engineers and architects, whose duty it shall be to study the various improvements contemplated and present plans and specifications showing cost, etc., of each. These plans and specifications must be submitted

to the secretary of public works on or be-fore the 31st of December next.

"The act gives the president of the re-public the right to admit free of duty all material used in these public improve-"The improvements for the province o Panama consist in part of the following: Capitol or public government building, mu-

nicipal palace, palace of justice, library and museum university, university for the sciences, school of arts, offices and commerce, theater, police station, public jail, and a normal college for young men. Some two years ago Gov. Carlos Alban, who was at the time at the head of the Colombian forces on the Pacific slope, was killed in an engagement in the bay of Panama. Sub-sequently a park was opened in the city near the Panama railroad station and named in honor of this distinguished Colombian. From time to time since that date there have been some improvements of this park, and now in this bill an approoriation has been donated for the purpose of improving and beautifying Alban Park."
"In the other provinces the fund is to be used for various and sundry purposes, among which are named the following: Erection of houses for the governors, police stations, normal schools, prisons, court lice stations, normal schools, prisons, court houses, hospitals, boring artesian wells, erecting bridges of iron and wood across rivers and streams, opening up public roads through the interior, cleaning harbors and opening up rivers, establishing electric plants in various municipalities, erecting light houses and making other improvements along the lines indicated above." ments along the lines indicated above.'

### THE GUATEMALAN ANTS.

Experiments With Them to Destroy

the Boll Weevil to Be Begun. Guatemalan ants will be at once introduced into Texas and put to work on the boll weevils infesting the cotton fields of that state. This action will be taken by the Department of Agriculture on the strength of the dissolution by the court of the injunction proceedings brought by a resident cotton planter who sought to restrain Dr. O. F. Cook of the department from introducing the ants into Texas. These ants, as already told in The Star, are a variety which was discovered in Guatemala by Dr. Cook OPENAIR EVENSONG ON THE CATHEDRAL grounds at 5 o'clock instead of 4 p.m., special preacher, Chaplain Charles C. Pierce, D. D., U. S. A. Take cars at 32d st.

Was discovered in Guatemala by Dr. Cook during his travels there for the government study of the rubber-growing industry. They are bitter enemies of the destructive boll weevil, and it is hoped that their introweevil, and it is hoped that their introduction into the United States will put a quietus upon the ravages of the last-named

Dr. Cook today went to Victoria, Tex. where he will begin his course of experiments with the ants on the government reservation. The insects will not be placed in any fields except on request of owners. There are eighty-nine colonies in the first importation, but it is not stated how many individuals constitute a colony. B. T. Galloway, chief of the bureau of plant industry of the Department of Agriculture, has been notified by Conrad Doyle, the assistant of Dr. Cook, that the ants, which are now in New Orleans, are in good condition, and more numerous than when they started from Guatemala. Mr. Cook states that it is highly important to learn the adaptability of the ants to the different climates and soils as found in Texas, that in case of necessity they may be exterminated absolutely and easily if undesirable traits appear. He says the ants are thoroughly predatory in their habits; that their movements are slow; that they may be handled with impunity, and that they are as harmless as toads. Important points yet to be determined have to do with the best manner of readily increasing the ants and caring for them during the winter season after vegtation disappears and the boll weevils become scarce.

## Companies Incorporated.

Certificates of incorporation have been filed in the office of the recorder of deeds

by the following: Articles of incorporation were filed ves terday by the Baker-Burwell Electrolytic Company of Utah. The capital stock is stated at \$1,000,000, and the incoporators were Frank B. Many, Arthur W. Burwell, Charles E. Baker, James W. Cummer, R. S. Donaldson, E. W. McCormick, S. A. Terry, B. E. T. Kretschmann and E. M.

Murdered in Haiti. United States Minister Squiers at Havana has informed the State Department of the assassination on the 10th ultimo of Alfred F. Simmons of Boston, Mass., at Cascorro. in the province of Puerto Principe, Simmons was struck with a machete, and his head severed from his body. Robbery was supposed to be the motive of the crime. Mr. Squiers says he earnestly urged the government to arrest all suspicious per-sons, particularly in view of the murder of J. C. Bradley, another American, whose murderers are still at large, in spite of the strenuous efforts on the part of the gov-ernment for their detection and arrest. In this last case several arrests have been made and Mr. Squiers believes that the guilty parties have been secured.

## Fire in an Arsenal.

General Crozier, chief of ordnance, has received a telegram from General Frank Heath, commandant of the Frankfort arsenal near Philadelphia, saying that an old shed containing about 100,000 small arms cartridges was struck by lightning yesterday and set on fire. The workmen at the arsenal, assisted by members of the local fire department, managed to extinguish the flames before very much damage was done either to the building or its contents. The ammunition was a condemned lot.

## FOR ELECTIRO WIRING GEORGETOWN AFFAIRS ALEXANDRIA AFFAIRS THE COURT RECORD

FIREMEN'S CONVENTION.

The Act Conferring Authority Goes Returns to His House From Hospital Several Committees Considering the Details of the Program-Gen-

eral and Personal.

Special Correspondence of The Evening Star.

ALEXANDRIA, Va., July 9, 1994. Extensive arrangements are being made for the entertainment of the Virginia State Firemen's Association in annual convention in this city next month. Since being apcommittee and the various subcommittees have been busy with attending to many details in their effort to make the meeting in Alexandria one of the most interesting in the history of the association. From towns reports of enthusiastic preparations of the fire companies to attend the convention. It is announced that the fire companies of Charlestown, W. Va., will bring fifty members who will enter the reel contest. Ladies will accompany the firemen from Charlottesville and from other towns.

Mr. John H. Trimyer of this city, the

president of the association, is active in his efforts to make the convention a suc-cess. The city council of this city has been asked for an appropriation to help in the entertainment of the visitors.

Proceedings in Corporation Court. A decree was entered in the corporation ourt yesterday in the case of the city council of Alexandria against the unknown heirs of William Briggs, directing a pro

rata payment of taxes. A similar decree was entered in the case of the city against Noble Smith. A decree was entered in the case of A. H. Taylor against W. F. Gard-ner et al., directing the purchaser to be placed in possession of certain property in Fairfax county. In the case of Roberta Hill against the Merchant's Building Association, No. 3, a decree was entered directing the receiver to pay all the taxes due on the property. Attorney Paul B. Hulfish was admitted to practice in the court. A decree was entered in the case of Eliz-

abeth Dietrich against Frederick J. Paff ordering the property involved to be turned over to Albert E. Dietrich, trustee. Attorney H. Winship Wheatley represented the complainant and Attorney Gardner L. Boothe the defendant. A similar decree was entered in the Supreme Court of the District of Columbia a few days ago and certain property which was a part of the estate of the late Frederick Paff was accordingly transferred.

### General Matters.

A free-for-all fight among a bunch of colored men was investigated by Justice Caton in the Police Court this morning. John Beamer, one of the crowd, was charged with assaulting and beating John F. Ramsaur, another member. The face of the latter bore ample testimony to the severity of the conflict, although it was charged that at one time during hostilities Ramsaur had appeared quite formidable, wielding a heavy spade over his head. Both men were assessed \$5.

A civil service examination will be held here July 20 for appointment to the position of watchman-fireman in the United States custom house in Alexandria. The Mr. and Mrs. Windsor Dema'ne have just returned from a trip to Ashville, N. C.
Rev. Father Richard L. Carne of Hamp-

ton, Va., is spending his vacation at his old home in this city. The remains of Mrs. Cora Stevens, whose and two others injured by being blown from a bridge at Thebes, Ill. death occurred at her home on South Fay-ette street yesterday, were forwarded this morning to Rockfish, Va., for interment.

## CLERICAL CHANGES.

CENTER ECKINGTON-Wilbur F. Nash, Showers Are Predicted for Tomor- Appointments and Promotions in the Interior Department.

The following official changes have been made in the Department of the Interior; Office of the Secretary: Appointment-Alexander L. White of Virginia, conductor of elevator, at \$720. Laura Kleinfelder of Pennsylvania, copyists at \$900. Patent office: Appointments-Miss Florence B. Alexander of Arkansas and Miss Anna V. Collins of Georgia, laborers (classified) at \$480.

General land office: Appointment-William W. Cohran of Mississippi, copyist at \$900. Promotion—Elmer E. Clements of North Dakota, copyist at \$900, to clerk at \$1,000. Resignations-Mrs. Ethel B. Hodges of Maryland, Miss Cora B. Dilley of Kansas and Louis R. Smith of North Carolina,

## clerks at \$1,000.

Chief Clerk Burch Designated. The Secretary of Agriculture has designated Col. S. R. Burch, chief clerk of the department, as the representative of the Department of Agriculture on the government board of the Louisiana purchase exposition. The appointment is made to fill the vacancy caused by the death of J. H. Brigham, late assistant secretary of the department. Col. Burch is a man of affairs the interests of the government will be en-tirely safe in his hands. He was for many years chief clerk of the bureau of animal industry and attended to the business in-terests of that bureau in such a satisfactory manner that his appointment as chief clerk of the department followed.

Elevator on Transfer Service. As a result of the investigation of the al-

lowances made by the Union Pacific railroad to the grain elevators of Peavey & Co., at the Council Bluffs and Kansas City terminals, the interstate commerce commission today upheld the contentions of the railroad.

The commission, in an opinion written by Chairman Knapp, holds that the compensation paid for the elevator or transfer service by the Union Pacific is not unreasonable; that the Union Pacific is entitled to perform the work itself or hire it done by others, and is not guilty of wrongdoing because incidentally those employed to transfer the grain are aided more or less in another line of business in which they are engaged. The commission adds that any injury or detriment resulting to rival carriers under the arrangement is some-thing which the law does not seek to pre-Vacation days should be planned for well

> The Peavey company erected the elevators under contracts with the Union Pa-cific, charging 14 cents per 100 pounds for the service. The real complainants were railroad competitors, who declared that if the arrangement was not declared illegal they would have to make similar allowances at transfer points on their own lines.

### Field Artillery Drill. Captain William Lassiter, Artillery Corps,

recently visited Rock Island arsenal, Ill., to inspect the material intended for the new three-inch field battery to be used by his command, the 7th Field Battery, at Fort Riley, Kan. He has now gone to Fort Riley and will get his command in readiness for the practical trial of the new field artillery drill to be conducted before the poard engaged on the revision of those reg-
